

INTELLIGENT CONNECTIVITY

'The fusion of 5G, AI and IoT :
intelligently connecting everyone and everything
to a better future'

William Tse
Head of Strategic Engagement, Hong Kong, Taiwan, Macau
GSMA

Who is The GSMA?

THE GSMA
WAS FOUNDED IN
1987

Intelligently Connecting Everyone and Everything to a #BetterFuture

The mobile industry is the first to formally commit to the UN Sustainable Development Goals

Representing the interests of

750+
MOBILE
OPERATORS

NEARLY
400
COMPANIES
IN THE BROADER
MOBILE ECOSYSTEM

Hosting the world's leading mobile industry events, MWC Barcelona, MWC Shanghai, MWC Los Angeles and the Mobile 360 Series attract

230,000
people from across the globe

The GSMA works to deliver a regulatory environment that creates value for consumers by engaging regularly with

MINISTRIES

Smart Platforms
With AI

Intelligent Connectivity – the next step
'The confluence of high internet speeds, big data, the Internet of Things, analytics and artificial intelligence will fundamentally alter the way we live and work, intelligently connecting virtually every device, making our cities smarter and our lives easier and more productive.'
Mats Granryd, Director General, GSMA

the value created by
the fusion of 5G, AI and IoT

The enterprise opportunity could be worth >60% of current revenues

- 60% of new opportunities will be straightforward B2B (rest will be B2B2C)
- Public Safety opportunity is mostly B2B; Media and entertainment is mostly B2B2C
- Enterprises require a simple and singular way to reach all their customers
- Engaging with Enterprise requires a change of mind-set to tap into the huge value
- If Operators do not adapt, the opportunity will be provided by others or developed by themselves (e.g. Ocado)

Source: Ericsson, GSMAi, GSMA

5G Expectation from Vertical Market

1

Automotive

- Seamless QoS for automotive services
- Low latency, eMBB for platooning
- Autonomous vehicles and remote support and diagnostics
- Network slicing for infrastructure mgnt.

2

Media & Content

- VR for living broadcasting and immersive entertainment experiences
- Enhanced retail experience / commerce
- Cloud gaming
- Alternative to satellite
- 5G for content production

3

Public / Smart City

- Connected police vehicles
- Equipping police officers with smartphones for a variety of use cases
- Smart city management

4

Healthcare

- Replacing wired equipment in surgery rooms
- Remote diagnostics
- Robotics (pharmaceutical dispensary, surgery)
- AI & analytics on medical records

5

Manufacturing

- Wireless / cheaper connection of mass devices
- Virtual control of CPUs
- Telemetry / exchanging of information in real-time
- Network slices for simplification of hardware

6

Energy & Utilities

- Edge computing to scale devices and process analytics
- 5G as substitute for last mile
- Micro-robotics
- Virtual plant management / efficiency management

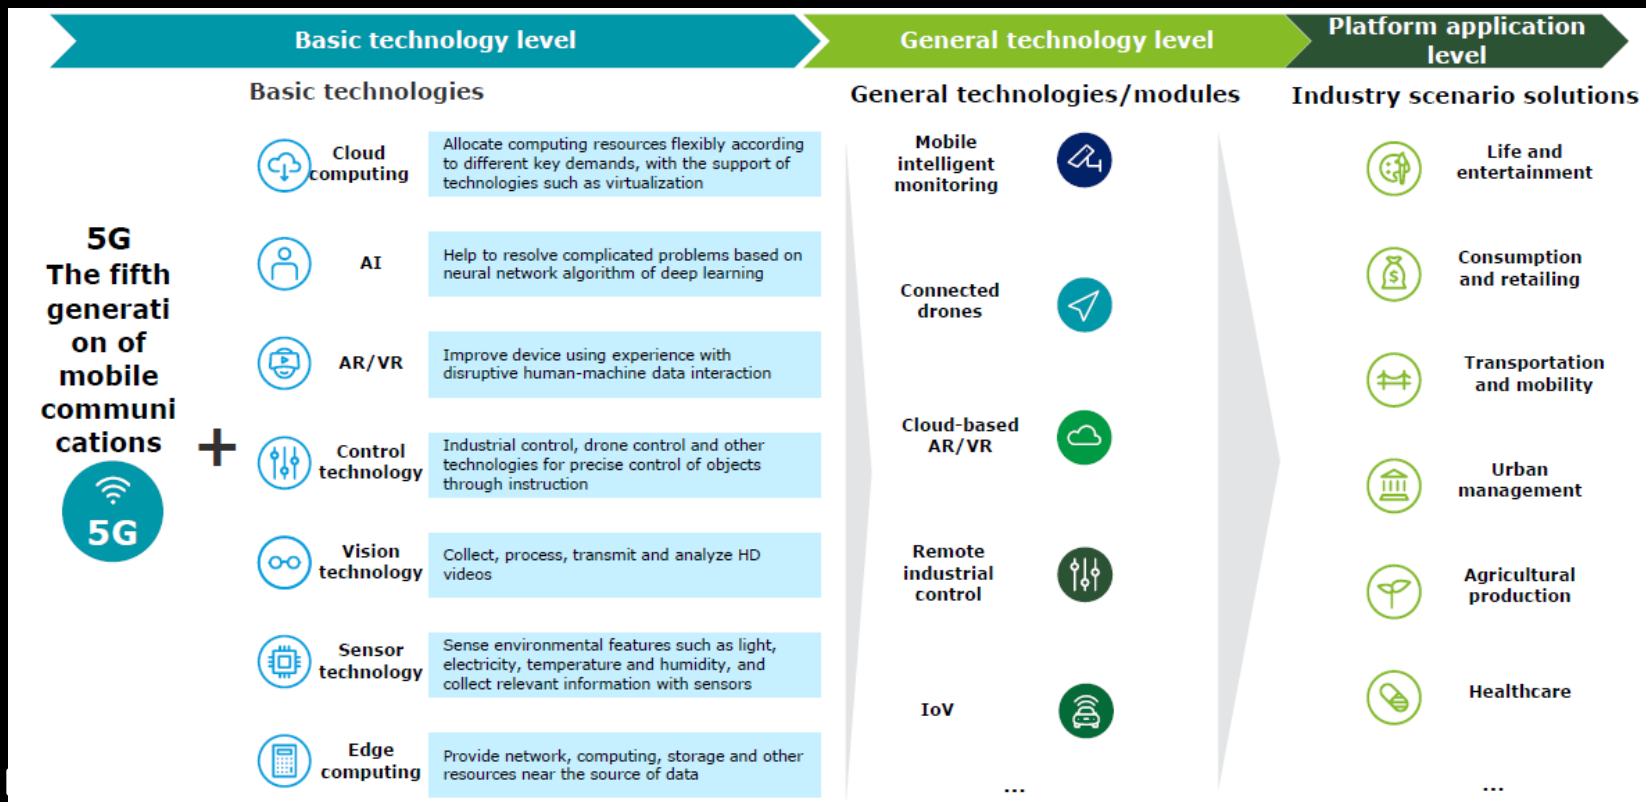

7

Software & tech

- Next generation work sites
- Network slices / personalized networks provide flexibility to enterprises
- New services opened by real-time interpretation
- Robotics

5G Mobile and Related Technologies

5G Innovation and Application Model

- Consumer Robot & Soundbox

- Baby Care
- Elder Care

- Remote Training & Education

- School
- Bank
- Shop

- Smart Factory
- Smart Traffic
- Smart Health

- People Count
- Access Control
- VIP List

CLOUD BASED MOBILE GAMING, IMMERSIVE CONTENT

Immersive gaming and virtual concert

After Work 5GX baseball VR broadcasting

SKT 5GX

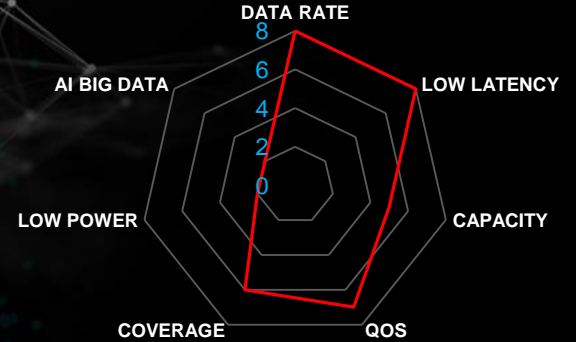

- Special cameras installed at 1st, 3rd base, or home plate broadcast 180° wide-angle view in real time for the better watching experience
(Available in oksusu VR channel or 'SKT 5GX VR' app. in Oculus store)
- Up to 8 avatars(users) can simultaneously watch on 100"-sized screen through 'okusu social VR'

KEY ENABLERS

DYNAMIC ADVERTISING

AI and personalised advertising and reception

KEY ENABLERS

Advertising

REMOTE TRAINING AND EDUCATION

Telepresence and learning

KEY ENABLERS

SMART AGRICULTURE

Enhanced food production & efficient distribution

KEY ENABLERS

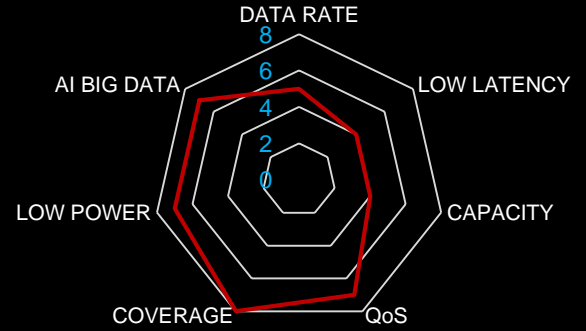

CONNECTED CARE

Real time healthcare, homecare monitoring, remote surgery

KEY ENABLERS

AUTONOMOUS TRANSPORTATION

Convenient, safe, independent travel

Emergency Electronic Brake Lights (EEBL)

In-Vehicle Speed Warning

Right Turn Assist

Red Light Violator Warning

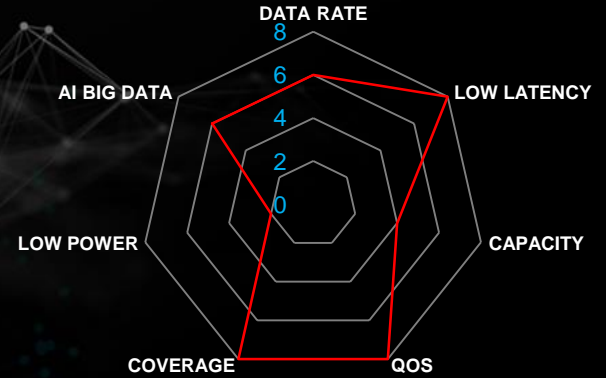

Curve Speed Warning

Cooperative Forward Collision Warning

KEY ENABLERS

Baidu and China Mobile partner on AI and 5G, focusing on self-driving cars
